

# Hot with H

## An insider's guide to viral love and sex

We're researching a documentary for national TV & the web looking at dating, loving and lusting with genital herpes.

We'd like to speak with men and women, young and old, gay and straight, in love or on the prowl and those who are celibate too. We want to hear it all. The more twists, the more complications and the more pain and joy, the better.

This is your chance to contribute, to be heard and to finally tell the world (even anonymously) what it's like to be living, loving and hopefully laughing with the herpes virus.

Register your interest with Jay at [slowmoradio@gmail.com](mailto:slowmoradio@gmail.com) by Friday October 30 and she will set up a convenient time to contact you.
